WARNING: BATTERY FIRE DANGER

DO NOT PLACE BATTERIES IN ANY OF YOUR CURBSIDE COLLECTION CARTS!

Batteries — especially Lithium Ion batteries — are flammable hazardous waste and can explode causing serious danger to people and machinery both during collection and at the processing facility.

WHAT TO DO WITH BATTERIES

- Drop off for safe handling at the Marin Household Hazardous Waste Facility at 565 Jacoby Street in San Rafael. Learn more at www.marinhhw.com.
- **Residential customers only:** Call us at (415) 457-9760 to arrange for a special pick up.

CALIFORNIA'S MANDATORY ORGANICS RECYCLING LAW

California's SB 1383 law aimed at reducing greenhouse gas emissions and fighting climate change, mandates that all waste generators (including businesses*, public entities, and single/multifamily residents) keep food and other compostable materials out of landfills by sorting their waste correctly. This involves placing organic materials in the compost cart or taking them to a composting facility or program. Additionally, residents must place recyclables such as paper, cardboard, cans, and bottles in the recycling cart.

Mill Valley Refuse makes this easy for you! Your compost, recycling, and garbage service are all included in your normal service package and have been for years. To comply with the law, you need to sort your waste correctly by placing food, food-soiled paper, and plant debris in your green compost cart, and paper, cardboard, cans, and bottles in your recycling cart(s).

Learn more about SB 1383 on CalRecycle's website: www.calrecycle.ca.gov/organics/slcp

*Some businesses may also be required to donate their edible food.
